We or our background screening providers will collect publicly available information from social media providers (such as LinkedIn) and certain online marketplaces (such as Amazon, eBay, and Facebook Marketplace).

3. Why we collect, use and store this personal data

We have to have a legal basis to process your data. We set each of these legal bases below, explain what they are, and assign a letter to each so that you can understand which legal basis we are relying on to process your data. The section below then explains the purposes for which we process your data, the processing operations that we carry out, and the categories of data that we use in each case.

Legal basis

A) Contractual performance – when you apply to be a Franchisee we have to consider your application. To do this we have to use your data.

B) Legitimate interest – there are instances where we have a legitimate interest to use your data. Our legitimate interest will vary depending on what we are using your data for, and we explain below what the interest is and how it relates to the processing operations that we are carrying out. Where we process personal data on the basis of a legitimate interest, then – as required by data protection law – we have carried out a balancing test to document our interests, to consider what the impact of the processing will be on individuals and to determine whether individuals' interests outweigh our interests in the processing taking place. You can obtain more information about this balancing test by using the contact details at the end of the notice.

C) Legal obligation – we have obligations to comply with legal, regulatory and other requirements under UK, EU or Member State laws. In certain cases, we will have to use your data to meet these obligations.

D) Consent – in certain circumstances we process your data where you have given us your consent to do so. Where this is the case you have the right to withdraw your consent at any time.

Purposes

We have set out below why we process your data and explain what data we use in each case:

We collect and use your personal data so that we can process your application to be a Franchisee. We store, and where needed, alter, your personal information to make informed decisions on recruitment and assess your suitability for the role, to communicate with you about your application, to respond to your inquiries and schedule interviews, and reimburse you for any agreed expenses incurred in the application process.

To do this we use your Basic information, ID information, Application information, Income information (and in France only), Bank details and Business partners.

In France and Germany, we may ask you for an extract of a criminal check document during your Franchisee application process, but we will only record whether or not this has been shown to us and will not copy, store or process this information.

In Germany, we may ask you to provide a copy of your ID information to us. We will ask you to provide a redacted copy (in line with instructions communicated to you at the time), but we will only review that this has been provided and will not copy, store or process this information. If we do need to make a copy we will ask for your consent.

We carry out LinkedIn and Marketplace Platform Searches using public information collected from social media providers and certain online marketplaces. When we do this, we rely on our legitimate interest to verify applicants and their business partners. Our LinkedIn checks review if applicants and their business partners have connections with our competitors. Marketplace Platform Searches check if they have public business accounts. 5. Where we transfer your personal data

Getir's IT systems are hosted on Amazon Web Services Frankfurt (Germany) and Google EU data centers. With that being said, as Getir Turkey plays a vital role in our group structure, especially in respect of the group-wide IT, management and legal operations, Getir Turkey employees can access the information listed at section 2. Neither the European Commission (if you are applying in Germany or France,) nor the UK government (if you are applying the UK) has an adequacy decision in place for transfers to Turkey. As such, when we transfer your data to Turkey we rely on Standard Contractual Clauses (SCCs) for such transfers:

If we transfer your data from Germany or France, we rely on the European Commission 2021 SCCs which can be accessed [here](#).

If we transfer your data from the UK, we rely on the European Commission 2004 and 2010 SCCs which can be accessed [here](#) and [here](#) respectively.

We also transfer your personal data to some vendors which host or access personal data outside of the EEA in which case we take steps to ensure your data is adequately protected using the above-mentioned European Commission 2021 SCCs.

A copy of the relevant mechanism can be obtained for your review on request by using the contact details below.

6. Your choices and rights

You have the right to **ask Getir for a copy** of your personal data; to **correct, delete** or **restrict** processing of your personal data; and to **obtain the personal data you provide in a structured, machine readable format**. In addition, you can **object to the processing** of your personal data in some circumstances (in particular, where we don't have to process the data to meet a contractual or other legal requirement). Where we have asked for your consent, you may withdraw consent at any time. In France, you also have the right to issue instructions for the managing of your personal data after death.

These **rights may be limited**, for example if fulfilling your request would reveal personal data about another person, or if you ask us to delete information which we are required by law or have compelling legitimate interests to keep. If you ask to withdraw your consent to Getir processing your data, this will not affect any processing which has already taken place at that time. If you have unresolved concerns, you have the **right to complain** to your local data protection authority.

Where a field is marked as mandatory, please provide the requested information otherwise we will not be able to process your application. In all other cases, provision of the requested personal data is optional.

7. How long we retain your personal data

If you are successful: we will retain your personal data only for as long as we need it for Getir's legitimate interest in accordance with applicable law, for the purposes of the recruitment process and, once this process is finished, for an appropriate period so as to be able to deal with any legal claims linked to the application process. Recruitment records for successful applicants are generally kept for the duration of our Franchisee relationship with you, plus the statute of limitation period in the country where you apply:
